Subject: Re: MOU_Nepalmed (x2).pdf

Dear Sirs,

Namaskar

I hope whole team of ANMF and families are fine and doing well.

Thank you for the kind decision for providing grant to Ampipal hospital for oxygen plant project. We are looking forward to get plant very soon. We have heard that next cargo from France will carry our plant, that might be end of next week. It is tentative date.

I have one kind advice to realize the project fund. We had prepared all the document in the name of Ampipal hospital where we are going to install the plant, hospital officially made request, budget proposal and recommendation from local authority the ward too. It is more practical as well to implementation.

I found in the MOU it is written Nepal med . I kindly request you board to think about it and change as required, so that no involvement of Nepalmed on it will be directly to Ampipal hospital. There is no problem to sign to me on be half of Ampipal hospital. As I understand Bikranta sir also has understood in this way and got approval from SWC already.

We highly appreciate charity work of ANMF for covid management and establish of NIC.

With regards,

Babu Ram Giri
Administrative Officer
Ampipal Hospital,
Gorkha
