Subject: Re: Project-19PNF001

Dear Bishnu Sir,

Namaste!

I hope you are doing great. I am already back in Bhairahawa. Just a quick update about the project. We have already completed the training program with 35-40 Female Health Community Volunteers (FCHVs) from Rohini of Rupandehi district and now, we are implementing the training program with Female Health Community Volunteers (FCHVs) of Siddharthanagar and Devdaha of Rupandehi district. Please find attached some of the photos with this email from the training program from Rohini of Rupandehi district.

We completed the curriculum development, pre and post surveys, and we are delivering the training program with experts/master trainers of the training program from District Health Offices, PHCs and coordinators of PNMF. Everything is going great and the training program is running very successful.

We would like to kindly assure that we will send the complete final report of the project by mid of April 2023. We will do both the program and financial reporting and closing by then. Again, on behalf of my entire team of PNMF, I would like to sincerely apologize to you and your board for delay of implementation of the training program with PNMF in Western Nepal. It was planned long time back but because of several reasons we couldnt do it on time. I sincerely appreciate your support, patience and understanding.

Also, if you would like to send someone from ANMF Kathmandu for the monitoring of the training program and also visit PNMF then we will be very happy to welcome and assist him/her for the trip. In addition, upon completion of the training program, we are giving certificates to all the participants. The signatory in the certificates will be from PNMF, District Health Office, Master Trainer and it would be nice and important to have someone from ANMF too. Could you please let me know and also send digital signature along with the details/ position of whoever you all recommend to put in the certificate.

Thank you very much. We will send you the final closing reports soon.

Sincerely,

Swati Thapa
Executive Director
Pratiman-Neema Memorial Foundation
