Subject: Menstrual Cups Proposal #2 Questions

Dear Dinesh,

The ANMF Projects committee is reviewing your Menstrual Cups 2 project proposal this Sunday. Clarifications are needed in the budget and in the proposal.

- The budget needs clarity that the toilet expense is for two girls toilets (restrooms) at \$3,715 each, total \$7,430. (the current budget quotes \$3,715 but does not specify that it is for two girls toilets totaling \$7,430)
- It would be good if you can name the schools where the toilet construction and trainings will take place.
- You should clarify that a problem for girls at school is that they do not have a private girls toilet to enable girls to take care of their menstrual needs at school. The girls toilet needs to have a lock, clean water, a shelf and hooks to hang their belongings while they are cleaning themselves, and enough interior space to move about and undress. You have talked to me about this need, but it should be in the proposal or in a separate written clarification for the projects committee and ANMF Board review.
- The budget is for 2 girls toilets at \$7,430. And training and supplies at \$8,525. Total requested of ANMF is \$15,955. This is my understanding, but your proposal details are not clear.
- There was also a question about the total budget of your program listed in your proposal page at \$21,955. Where is the additional \$6,000 being spent?

Thank you, Dinesh.

Looking forward to hearing from you soon.

Julia
