Dear sir, Greetings of the day,

We are having problem in arranging some documents that you have asked, for signing our MOU. The problem is, Social Welfare Council, Nepal is not providing approval letter for Oxygen refilling unit since local bodies of our Municipality is not renewing our contract. It is because; they have not developed clear policy on this topic and still working on it under the governance of Federal Government.

We have recently installed Oxygen refilling unit and we managed to purchase it under loans. We have planned to clear the debt after receiving fund from your side. So we might require some time for arranging all those documents.

Thank and best regards
